

President of Sports and Societies – Manifesto

Intentions

- Introduce a bi-termly newsletter of sporting results and achievements to increase college awareness of sporting events around college and upcoming fixtures for all sporting teams.
- Raise the profile of often overlooked sporting societies through the newsletter.
- The pathways of society funding should be more transparent to the student body so that more people can take advantage of the funding available to start up their own societies and expand the breadth of Fitzwilliam's extra-curricular opportunities.
- Update societies contact details on the JCR website and send this list as part of the welcome pack to incoming freshers, as well as having this visibly displayed during the Fitz freshers Fair.
- Society performances at freshers' fair would also be great – this would liven up the fair rather than simply having tables and stalls.

Experience

- Involved in college sport by playing in the college football team – Cuppers winner 2018!
- President of two Fitzwilliam based societies – Barbershop and Fitz Theatre.
- I feel I am well placed to represent the interests of a wide range of the Fitzwilliam community, and also think I am approachable enough to listen and take into consideration the views of other societies and communities within the college that I am not directly involved in.
- I have also founded a society this academic year, so I am well aware of the processes and discussions involved with creating new societies so am in a good position to assist anybody else wishing to do so in the future.
